NINJIO AWARE HOSTED

WHAT'S UNDER THE MASK?

3-4 MIN. ANIMATED EPISODES

NINJIO is made up of 3-4 minute long animated “episodes” that dive into a single security breach in order to educate your employees about the dangers of one particular cyber security threat.

MONTHLY EPISODE RELEASES

A new episode is released every 30 days based on the latest recognizable breach. We pull our content right out of the headlines. Your employees will never see the same episode twice. Security Awareness is constantly reinforced.

TRUE HOLLYWOOD WRITING

Each episode is written by a true WGA Hollywood writer, with 71 episodes of CSI:NY and Hawaii 5-0 to his credit. Each episode is based on or inspired by an ACTUAL significant security breach that will likely be familiar to each of your employees.

RETENTION BY STORYTELLING

NINJIO tells stories, **NOT** lectures. Users emotionally connect to the first scene of each episode and they are kept engaged until the end. When was the last time you were emotionally connected to a lecture? Engagement = Retention.

NINJIO'S CORE OFFERING

NINJIO AWARE HOSTED is a Managed I.T. Security Awareness Solution that produces 3-4 minute-long animated episodes based on or inspired by real life companies who have suffered a significant breach. These episodes are created and distributed every 30 days in order to educate employees about the dangers that exist in cyber security, and gradually change their behavior.

Your users and the episode library are hosted on a cloud-based Learning Management System with robust reporting. Export your users, send them securely to **NINJIO** and within minutes they are uploaded. Next, **NINJIO** works with you on your "launch schedule" and your work is done! A true managed service.

Your subscription includes the fresh monthly content plus access to the entire library at one low monthly fee.
